

INSTRUCTIONS

We have created this software to be simple to use and if you follow the Hints and Tips in the software you should have no problem using this software and creating high Converting Talking Squeeze page with little effort.

However, there are a few things you need to know so read carefully.

The Free Version Software Will Create A Lead Generation Page and Download Page For 3 Free Video Training Software Lead Magnets.

The PRO Version Software Will Create A Lead Generation Page and Download Page For 8 Video Training Software Lead Magnets.

PRO Users Can Keep The Default BackGround Image or Use Your Own.

You Can Use Getresponse, Aweber or Any Other Optin Form Code From Your Autoresponder Service Provider.

If you're using an autoresponder code other than Getresponse or Aweber you must style your form from your autoresponder form setup to suit the Lead Magnet page you're creating.

READ The Hints & Tips on The Bottom of The Software Window Carefully Before You Proceed To The Next Step.

Instruction For Using a Getresponse Form Code

When logged into your Getresponse account click "Create Form" and select the Plain HTML Version

On The right panel select the campaign you're creating the form for.

Your button text won't matter because you'll create your button text in the software.

Leave Custom Thank You Page URL Un checked. You will put your redirect URL in the software

Click To Add "Name" Field

Now near the top of the Form HTML code look for

`<!-- Campaign token -->`

`<input type="hidden" name="campaign_token" value="4zy35" />`

The plain HTML form. Generate raw HTML without CSS or JavaScript.

Uncheck " Include beautiful form styles to get unformatted basic form"

To view the code properly copy and paste it into a notepad file.

Now copy and paste the listname" value="awlist4655503" onto a notepad to use later when you create your squeeze pages

In This Example, the list name value is: awlist4655503

Now copy the FULL redirect" value URL

https://www.aweber.com/form/thankyou_vo.html?id=redirect_edd71131635eda54c621c285d7a1fbe1

NOTE: The Redirect value URL is long and all the characters are not showing in the window so you need to drag right when highlighting until you get the full URL Without the quotes.

(Easier To View if you copy and paste it into a Notepad file)

Now copy and paste the FULL redirect" value URL onto a notepad to use later when you create your squeeze pages

The Software will ask you if you want to use an Aweber Form Code.

Select YES. and Click Next. In the Space provided Paste in Your List Name "Value". Click Next. Now enter your redirect URL. This can be a Thank you for subscribing page or a special offer.

If your using Aweber select "NO" To Use Getresponse and Next For All Other Form Codes

Instruction For Using Other Form Codes

When Creating your Opt-in form in your autoresponder account make the form as plain as possible. Just The Name Field and the Email Field.

The form you create will be shown on your squeeze page so make it fit according to the squeeze page you're creating.

Select NO to use Getresponse and NO to use Aweber. YES To use a form code other than Getresponse or Aweber. Paste your form code into the space provided and click next.

You Will have the option to Create 3 Lead Generation Pages with Download Page for Each with the Free Version and 8 Lead Generation Pages with Download Page for Each with the PRO Version.

For Every Lead Generation Page Creation, you will be asked The Same series of questions. Simply Select YES or NO in response to the questions. The Questions are as follows.

You Can Add Up To 5 HTML Banners on Your Download Page.
One Banner Code is Required and the Other 4 Are Optional But Recommended.

Simply Select YES or NO and Enter Your Details.

After you've made your selections and created your squeeze pages click finish and You will be asked where you want to save the files on your computer. Select an empty folder and the software will open the folder after completion

You will have 3 Folders.

Aweber

Getresponse

Other-Form-Codes

Don't let this confuse you!

Keep The Getresponse Folder if you used Getresponse as your Autoresponder

Keep The Aweber Folder if you used Aweber as your Autoresponder

Keep The Other-Forms Folder if you used Any other Autoresponder

Delete The Folders You Didn't Create

After you finish this process you should have one folder of Lead Generation Pages and the download pages for those Lead Pages are included.

All the HTML pages are separated by software name for your reference only.
Example: Fast-Track-Traffic.html change these to index.html and rename the download page to something that people won't easily guess.

Now Create and Name as many folders on your server as you have on your computer and upload the files to your server.

With the Free Version You will have 3 folders and with the PRO Version You will have 8 folders

Example URLs:

<http://yourwebsite.com/Traffic-Methods-Exposed> (index.html) (Lead Page)

<http://yourwebsite.com/Traffic-Methods-Exposed/downloadpage.html>
(Download Page)

<http://yourwebsite.com/Fast-Track-Traffic> (index.html) (Lead Page)

<http://yourwebsite.com/Fast-Track-Traffic/downloadpage.html> (Download Page)

<http://yourwebsite.com/Free-Traffic-X> (index.html) (Lead Page)

<http://yourwebsite.com/Free-Traffic-X/downloadpage.html> (Download Page)

Continue in the same fashion if you have the PRO Version with 8 Lead Pages
To make this process as easy as possible it is best to have everything you will need ready before you start the creation process.

Then all you will need to do is copy and paste the items in the software when prompted.

What you will need:

1: Your Getresponse or Aweber Values
or your autoresponder form code if you're using another Autoresponder
and Your Redirect URLs.

Pro Users Use the Bonus Software Provided to create your Timed Redirect Script. The timed redirect script URL for Getresponse goes in the software when asked for the Custom Thank You Page URL.

See Images Above!

For Aweber Put the Redirect Script URL in Aweber custom thank you page when creating your form and copy and paste the URL From The Aweber Form to the software When asked for Aweber redirect URL.

See Images Above!

PRO ONLY

2: The Background Image URLs that you will be using for your Lead pages.

PRO Users can access the image gallery from within the software.

click on the link in the software and it will take you to the image gallery.

If you have the Free Version Simply Leave The Default Placeholder Image URL in Place.

3: Your Talking Buddy javascript codes

We have provided you with one Talking Buddy Code for your Lead Page and One Talking Buddy Code for your Download page with the Free Version

If you have the pro version simply click on the link in the software and it will take you to the Talking Buddy Code Page

4: Your Video Training Software Zip file download URL

5 Your 5 Banners codes for your download page

Pro Users Use The Bonus Software to create these HTML Banner Codes or use your own banner codes.

Now Drive as much Traffic to your lead pages as possible and build a huge responsive buyers list!
